

1. COMMAND PHASE

Start of Phase Abilities

Rules triggered at start of the Command phase are resolved now.

Gain CP

Both players gain 1 Command Point (CP).

Battle-Shock

Make one roll for each unit that is:

- Currently battle-shocked, OR
- At or below half-strength (models or wounds remaining)

Roll 2D6 ≥ Ld to pass. If failed, unit is battle-shocked:

- OC characteristic becomes '—'
- Cannot be targeted by stratagems
- Cannot start or complete actions

Command Abilities

- Resolve other Command phase rules (faction abilities, etc.).

End of Phase Abilities

Rules triggered at end of the Command phase are resolved now.

2. MOVEMENT PHASE

Move Types

Normal Move (M"): Unit must be unengaged.

Advance (M+D6"): Unit must be unengaged. Cannot declare charge or start action this turn.

Fall-back (M"): Unit must be engaged. Cannot shoot, charge, or start action this turn.

- Ordered Retreat: only available if unit is not battle-shocked
- Desperate Escape: mandatory if battle-shocked, Hazard roll per model, move through enemy models

Remain Stationary: Any unit.

△ Engagement Range is 2" horizontal + 5" vertical

△ Coherency: within 2" of ≥1 other model AND within 9" horizontal and 5" vertical of every other model in the unit (check at End of Turn)

Flying & Surging

- Surge when triggered if not battle-shocked, unengaged, and has not moved this phase. Must move toward closest enemy.
- Declare take to the skies before moving. -2" from max distance. Can move through all models and terrain.

Embarking

- After normal, advance, or fall-back move.
- All models must end within 3" of the transport; unit not set up this turn; sufficient capacity.

Disembarking

Rapid (set-up within 3"): Transport made a normal or ingress move. Cannot declare charge this turn.

Tactical (set-up within 3"): Transport stationary or not yet moved. Unit then makes a normal or advance move.

Combat (set-up within 6"): Otherwise. Hazard roll per model. Battle-shocked; cannot charge.

Emergency (transport destroyed): Hazard roll per model. Set up wholly within 6". Battle-shocked; cannot charge.

Strategic Reserves / Ingress Move

- Max 50% of points. Arrive from battle round 2 onwards.
- Set up wholly within 6" of a battlefield edge, more than 8" from all enemies.
- Before round 3: cannot set up in opponent's deployment zone.

△ After an ingress move, unit cannot make any other move until the start of the next Charge phase.

- Not arrived by end of battle round 3 = destroyed (except units in arrived transports and repositioned units).

3. SHOOTING PHASE

Shooting Types

Normal: Unengaged, did not advance.

Assault: Unengaged, advanced, has [ASSAULT] weapons. Only [ASSAULT] weapons may be used.

Close-Quarters: Engaged, did not advance, has [CLOSE-QUARTERS] weapons or is MONSTER / VEHICLE.

- Non-MONSTER / VEHICLE: [CLOSE-QUARTERS] weapons only; must target an engaged enemy unit.
- MONSTER / VEHICLE: -1 to hit unless using [CLOSE-QUARTERS] weapon vs engaged target. [BLAST] weapons cannot target engaged units.

Indirect: Unengaged, did not advance, has [INDIRECT FIRE].

Targeting Rules

- Normal/Assault: target visible, within range, unengaged.
- Indirect: target need not be visible; target has BoC; cannot re-roll hits; unmodified 1–5 fails (1–3 if unit remained stationary and target visible to a friendly unit).
- Engaged MONSTER / VEHICLE units can be target; -1 to hit.
- Different weapons on the same model may target different units; one weapon cannot be split across targets.

Attack Sequence

1. Hit Roll: D6 ≥ BS/WS. Unmodified 1 always fails, unmodified 6 is a Critical Hit

2. Wound Roll: D6 vs table. Unmodified 1 always fails, unmodified 6 is a Critical Wound.

3. Save Roll: D6 – AP vs Sv or D6 vs InSv. Unmodified 1 always fails.

4. Damage: Model loses wounds = D. Excess damage lost.

S vs T	Need
S ≥ 2×T	2+
S > T	3+
S = T	4+
S < T	5+
S ≤ ½T	6+

Wound Allocation

Groups: One per CHARACTER; one per matching W/Sv/InSv set of non-CHARACTERS.

Order: Wounded non-CHARACTER → unwounded non-CHARACTER → CHARACTER (last).

△ No CHARACTER group may be allocated before any non-CHARACTER group. Once all non-CHARACTERS are gone, wounds reach CHARACTERS normally (no blanket immunity).

- Work through saves lowest to highest. Select model with lost wounds first within a group.

Benefit of Cover (BoC)

- Worsen attacker's BS by 1 if every model in the target unit is INFANTRY / BEASTS / SWARM within a terrain area OR not fully visible due to intervening terrain/obscuring area.

Mortal Wounds

- 1 MW = 1 wound lost, no saves. Inflicted after all normal damage from the same attack. FNP rolls can still be made.

Hazard Rolls

- Roll a D6: 1–2 suffers 1 MW (or 3 MW if MONSTER / VEHICLE)

Objectives

- Terrain objective: objective = the terrain area itself; within range = wholly within that area.
- Objective marker: within range = within 3" horizontally and 5" vertically.
- Level of Control (LOC): total OC of all your models within range.
- Higher LOC controls; equal LOC = contested. Assessed at end of each phase and turn.
- Secured objective: remains controlled even with no models in range, until opponent's LOC exceeds yours at end of a phase.

ACTIONS

A unit cannot start an action if:

- Not on the battlefield.
- AIRCRAFT or FORTIFICATION unit.
- Battle-shocked.
- OC = 0 or —.
- Engaged (unless TITANIC).
- Made an advance or fall-back move this turn.
- Already started another action this turn.

Starting an action: unit is not eligible to shoot (exc. TITANIC) or declare a charge until action ends or turn ends.

Fails to complete if: unit makes any move (exc. pile-in/consolidation) or leaves the battlefield

TERRAIN

Movement by Category

Exposed & Light: All models can move freely horizontally and vertically through these terrains.

Dense:

- INFANTRY / BEASTS / SWARM / MOBILE can move horizontally freely
- INFANTRY / BEASTS / SWARM can move vertically freely
- All others move horizontal through sections ≤ 2" height only; climb vertically through taller sections.
- Cannot end on elevated surface unless all models are INFANTRY / BEASTS / SWARM / FLY / MONSTER and no part of the base overhangs outer edge.

Visibility

Solid (dense terrain): LOS cannot cross enclosed gaps ≤ 3" from ground level.

Obscuring terrain area: If every LOS between two models crosses an obscuring area (neither model in it), they cannot see each other.

Hidden: INFANTRY / BEASTS / SWARM inside dense area, no ranged attacks this turn or last. Only visible within 15".

Plunging Fire: +1 BS if attacker is on terrain ≥ 3" high, or has TOWERING and target is within 12".

CORE ABILITIES

ANTI-X Y+: Unmodified wound roll of Y+ = Critical Wound vs keyword X.

ASSAULT: Enables Assault Shooting.

BLAST X: +X attack dice per 5 models in target unit (round down).

CLEAVE X: +X attack dice per 5 models in target unit (round down).

CLOSE-QUARTERS: Enables Close-Quarters Shooting (also [Pistol]).

DEADLY DEMISE X: On destruction, roll D6; on 6, units within 6" suffer X MW (if random X, roll per unit).

DEEP STRIKE: Ingress move can be anywhere > 8" from enemies, including opponent's deployment zone.

DEVASTATING WOUNDS: Critical Wound → attack ends; target suffers MW = D characteristic. Max 1 model per Critical Wound; excess MW lost.

EXTRA ATTACKS: When fighting: must use all [EXTRA ATTACKS] weapons plus one other melee weapon.

FEEL NO PAIN X+: Each time model would lose a wound (including MW), roll D6: on X+, wound not lost.

FIGHTS FIRST: Every model must have this; unit fights in Fights First step.

FIRING DECK X: Select up to X embarked models; TRANSPORT gains their ranged weapons this phase. Those units cannot shoot this turn.

HAZARDOUS: One hazard roll per [HAZARDOUS] weapon used.

HEAVY: +1 to hit if unit unengaged, not set up this turn, moved ≤ 3".

HOVER: Taking to skies: do not subtract 2" from max distance.

IGNORES COVER: Target cannot have BoC against this attack.

INDIRECT FIRE: Enables Indirect Shooting.

INFILTRATORS: Deploy > 8" from opponent's deployment and all enemies.

4. CHARGE PHASE

- Targets must be within 12" (need not be visible).

Charge Roll: 2D6 = max distance of charge move.

Charge move conditions:

- Select charge targets before moving.
- Each model must end closer to a charge target; within 1" if possible; engaged if possible.
- Must end engaged with all charge targets; cannot end engaged with non-targets.
- Each model in charging unit gains Fights First.

5. FIGHT PHASE

Pile In — both players; active player first

- Up to 3" if engaged OR made charge move OR was selected for overrun fight.
- Select targets first: every engaged enemy unit (if engaged); or ≥1 within 5" (if not).
- Models in base contact cannot move. Each model moved must end closer to closest target, engaged if possible.
- Must end engaged. Each model that started engaged must remain engaged.

Fight

Eligible: Engaged at start of Fight step or made charge move

1. Fights First: Alternate selections, active player starts.

2. Remaining Combats: Start with the player who moved this sequence onto this step, alternate selections

- **Normal Fight:** Unit is engaged.
- **Overrun Fight:** Unit is unengaged (or was at start of step). One extra pile-in move, then fights.

If a new Fights First units become eligible while resolving Remaining Combats, return to Fights First step. When all eligible units are more than 5" from all enemy units, player may pass.

Consolidate — both players; active player first

- Up to 3" if the unit was eligible to fight this phase.

Select mode (first applicable):

Ongoing: Unit engaged. Stay engaged; move closer to enemies.

Engaging: Within 3" of enemies. Must end engaged; newly engaged enemy units that have not fought must fight next.

Objective: Within 3" of objective. Must end within range of it.

LANCE: +1 to wound if unit made a charge move this turn.

LEADER / SUPPORT: Leader and Support each attach to one bodyguard unit (one Leader + one Support max per bodyguard). Bodyguard's T used for wound rolls. See Wound Allocation for CHARACTER protection rules.

LETHAL HITS: Critical Hit → may auto-wound (no wound roll; cannot result in Critical Wound).

LONE OPERATIVE: Not visible beyond 12". Cannot be targeted by [INDIRECT FIRE] beyond 12".

MELTA X: If target within half range at Select Targets, add X to D.

ONE SHOT: Once per battle. Revived models cannot re-use it.

PRECISION: May select a visible CHARACTER allocation group as current allocation group.

PSYCHIC: May ignore modifiers to BS/WS and hit roll. Counts as psychic attack.

RAPID FIRE X: +X attack dice if target within half range when selected.

SCOUTS X": Pre-battle: scout move up to X" (must end >8" from enemies) OR redeploy from reserves into own deployment zone.

STEALTH: If every model has this: unit has BoC against all ranged attacks.

SUPER-HEAVY WALKER: Move through models (not TITANIC); horizontal through terrain ≤ 4" high. May grant MOBILE for the move (on 1 after move ends: battle-shocked).

SUSTAINED HITS X: Critical Hit = X additional hits.

TORRENT: Automatically hits.

TWIN-LINKED: Re-roll wound roll.

COMMAND RE-ROLL 1CP

◆ EITHER PLAYER'S TURN

WHEN: Any phase, just after making an Advance roll, Charge roll, Damage roll, Hazard roll, Hit roll, Save roll, Wound roll, or a roll to determine the number of attacks generated with a weapon, for a friendly unit or model.

TARGET: That unit or model.

EFFECT: Re-roll that roll. If rolling more than one dice together, select one die to re-roll. Charge rolls must be re-rolled in full.

EPIC CHALLENGE 1CP

► YOUR TURN

WHEN: Fight phase, just after a friendly CHARACTER unit is selected to fight.

TARGET: That CHARACTER unit.

EFFECT: Select one CHARACTER model in your unit. Until end of phase, that model's melee weapons have [PRECISION].

INSANE BRAVERY 1CP

► YOUR TURN

WHEN: Battle-shock step of your Command phase, just before making a battle-shock roll for a friendly unit.

TARGET: That unit.

EFFECT: That battle-shock roll automatically succeeds.

RESTRICTIONS: Once per battle.

★ EXPLOSIVES 1CP

► YOUR TURN

WHEN: Your Shooting phase.

TARGET: One friendly unengaged EXPLOSIVES/GRENADES unit eligible to shoot that did not advance this turn.

EFFECT: Select one EXPLOSIVES/GRENADES model and one unengaged enemy unit within 8" and visible to it. Roll six D6: for each 4+, that enemy unit suffers 1 mortal wound.

★ CRUSHING IMPACT 1CP

► YOUR TURN

WHEN: Your Charge phase, just after a friendly MONSTER/VEHICLE unit ends a charge move.

TARGET: That MONSTER/VEHICLE unit.

EFFECT: Select one engaged enemy unit and one model in your unit engaged with it. Roll D6s equal to that model's T: each 1 = your unit suffers 1 MW; each 5+ = enemy suffers 1 MW (max 6 MW).

RAPID INGRESS 1CP

◀ OPPONENT'S TURN

WHEN: End of your opponent's Movement phase.

TARGET: One friendly unit in strategic reserves (excluding AIRCRAFT).

EFFECT: Your unit makes an ingress move.

RESTRICTIONS: Cannot be used during the first battle round.

FIRE OVERWATCH 1CP

◀ OPPONENT'S TURN

WHEN: End of your opponent's Movement phase.

TARGET: One friendly unengaged unit (excluding TITANIC).

EFFECT: Your unit uses snap shooting — target one visible enemy unit within 24"; hits only on unmodified 6; cannot re-roll hit rolls. Unit cannot start an action until end of phase.

SMOKESCREEN 1CP

◀ OPPONENT'S TURN

WHEN: Start of your opponent's Shooting phase.

TARGET: One friendly SMOKE unit.

EFFECT: Until end of phase, each time an attack targets your SMOKE unit, or a unit not fully visible to the attacker due to your SMOKE unit, that target has Benefit of Cover.

HEROIC INTERVENTION 1CP / 2CP

◀ OPPONENT'S TURN

WHEN: End of your opponent's Charge phase.

TARGET: One friendly unengaged unit within 12" of one or more enemy units. VEHICLE only if CHARACTER/WALKER.

EFFECT: Resolve a charge. Select mode before charge roll:

- Leap to Defend (1CP): charge targets must be units that made a charge move this phase and are within max distance.
- Into the Fray (2CP): charge roll result >6 becomes 6; charge targets can be any enemy within 6" and within max distance.

COUNTEROFFENSIVE 2CP

◀ OPPONENT'S TURN

WHEN: Fight step of your opponent's Fight phase, just after an enemy unit has resolved its attacks.

TARGET: One friendly unit eligible to fight.

EFFECT: Until end of phase, your unit has Fights First and must be the next unit selected to fight.

USING STRATAGEMS

- To use: select targets → reduce CP by the stratagem's cost → resolve effect. Cannot use if insufficient CP.
- Cannot use the same stratagem more than once in the same phase.
- Unless otherwise stated, cannot target the same unit with more than one stratagem in the same phase.
- If a stratagem has an additional cost section (e.g. +1CP), it can only be used by paying that extra cost.
